# Zen

Designer: Marconato and Zappa

Born from the collaboration between Bonaldo and Studio Marconato & Zappa, the Zen table is an essential design element, however, with a strong impact. A simple table, clean in its shapes, with modern lines that adapt perfectly to any type of environment, from the most traditional to the most contemporary one. The thin, slender and resistant shapes and the possibility of extending the top make it a table suitable for both the kitchen and office areas. The main element

is essentiality: starting from the name, "Zen", up to the choice of materials, painted metal for the base and glass or lacquered wood for the top. The extensions, in lacquered wood, allow the surface to be extended, creating a convenient additional space; thanks to the lateral movement, the legs are placed at the edge of the top and do not obstruct the seating.
